Unmatched excellent service! William goes above & beyond to keep customers happy and returning! He has a very talented eye for knowing exactly what your bike needs and offers it at unmatched prices. Attention ALL cyclists: do yourself a favour and treat your bike with a service at Dunkeld Cycles. You and your bike will not be disappointed, scout's honour ☐. Thank you William for making it a no-brainer on the choice of a bike shop in Jozi.

Dunkeld Cycles are simply the best! We needed our bikes serviced for Ironman 70.3 Mossel Bay, and Dunkeld Cycles went above and beyond. Even with the JHB 94.7 race weekend rush, William immediately replied to my WhatsApp and booked us in without hesitation. When we arrived, he greeted us personally and even remembered we'd come all the way from Secunda, that personal touch says it all! Within minutes I got an SMS confirming our bikes were in the workshop. The communication, professionalism, and friendliness from the whole team were next-level. The mechanics know their stuff and treat every rider, beginner or pro, with the same care and respect. Dunkeld Cycles delivers service that's rare to find these days. I left feeling confident, valued, and ready for race day. 100% recommend, they're the only shop I'll ever trust with my bikes!

My go-to bike shop in Jozi. Incredible staff with all the know-how and resourcefulness when it comes to product, maintenance, fitting and even nutrition. Come for excellent service and stay for some laughs and coffee with the team. Top class
Matsebe Thulare

Excellent, personal service, great selection of bikes, parts and accessories and top communication. Thank you Will and team for attention to the small stuff regardless if it's an entry-level e-bike or high-end performance bike.

William and the team at Dunkeld are amazing - always helpful, always responsive, reasonably priced and cool guys and girls!

I've known William & his Team for over a decade, they have knowledgeable and helpful staff, personalised advice and support, excellent after-sales service, trusting, well-priced, and nothing is ever too much trouble. Thanks, Dunkeld Cycles, what a great LBS
David Cooke

Thank you Dunkeld Cycles Team for your exceptional service. They saved me twice in just 24 hours—first by quickly repairing my brakes and then rescuing me after a tire explosion. Their pickup and drop-off service made everything so convenient. Highly recommend!

I just happened to find Dunkeld Cycles and chat with a young guy, William, about tyre choices and how GRX comps could fit on my old Giant XTC Advanced as a 'monstercross' bike. He was so approachable and affable that we started talking MTBs and monstercross mods that won't break the bank. His advice was pertinent and spot on. He was professional, knowledgeable and super friendly. Not once did I feel like I was wasting his time or that he was uninterested and had better things to do. (like other bike shops in Fourways). I eventually walked out with a bike I've been

looking for, for two years and gave me such a great deal, he saved my day, my Race to the Sun and my marriage. Thanks William. You are a legend!

Sent my bike in for a service and received excellent service. Very friendly and helps staff. Took my bike for a ride today and it's better than ever, very happy with the service.
James Haupt

Great local bike store with very attentive service and good communication. Enjoyed the transparency through chat on issues on the bike that needed attention during the service process. Also charged the battery of my electronic gears which was appreciated. Thanks for the great service!
Rowan Williams

Fantastic service from William. Bought a bike and Kickr and had an excellent in-store set up with Richard Baxter. William arranged delivery for me and the whole process was professional and helpful from beginning to end. Very happy indeed.
Adrian Friedman

Took my bike in for a service and ended up with so much more. I can't begin to express the level of service and detail that Dunkeld Cycles offer. Friendly & knowledgeable staff and a special shout out to Will for going over and above with my bike and its parts. If you love your bike, you'll love Dunkeld Cycles.
Adrian Benjamin

Took my bike to Dunkeld Cycles on Monday knowing they would be busy with 947 coming up this weekend. But my back disc was touching and I was not looking forward to riding round Joburg with some permanent braking. They happily agreed to fit my bike in and agreed I could collect at lunchtime. Got there at lunchtime and they had straightened the disc and realigned the calipers perfectly. On top of that they had cleaned and polished the bike so it looked better than when I took delivery. Thanks William and team for your continued great service and for always being able to assist customers. Well done!
Andrew Smith

Absolutely exceptional service!! Always friendly, keeps you up to date all the way, goes the extra mile to get your bike serviced and done on time as per request. Definitely a step up from all the rest.
Maretha Bezuidenhout

Always willing to help, polite, knowledgeable staff and invested in your love of riding. Bit pricey, especially on their accessories but they pretty much only stock tried and tested name brands ... No superstore lvl poor quality goods sold in this shop... all over .. a quality experience all round . Just wish I had R250K to spend with them. Lol ..
Don Maherry

Great staff very helpful. Surprised at how affordable they are considering its a specialized shop. Services my bike which felt like a brand new bike after they were done. I will definitely be going back.
Arora Simpson

Very helpful and friendly service with realistic prices. Speedy and exceptional bicycle knowledge in the workshop. Been back here again and honestly wish I could give it more stars. Thank you Dunkeld cycles team you are amazing.
Mike Marquis

Amazing service and always a pleasure leaving my bikes there knowing that I will get it back in perfect condition, in great time and communication from the team throughout the job! Nothing is too much of a problem for them!!

Jacques Smit

If you want anything to do with bicycles this is the store to go to. Go and visit James and Will for anything from advise on a bike purchase, parts, bike fit to accessories you need they will give you great service.

04 DESIGN DIRECTION

Vibe / Mood

e.g. Dark and serious, warm and artisan, clean and clinical, bold and energetic

Energetic. Slick, retro cycling cool.

First 3-Second Goal

e.g. What should the visitor feel or think immediately — one sentence

These guys love bikes and mine will be safe there.

Hero Treatment

e.g. Dark gradient background, full width image, light minimal, split layout

full width image with text

Headline Idea

Write your best attempt at the hero headline. It should speak to the customer outcome, not the business features. If stuck, describe what you want it to make the reader feel.

Not your average LBS. Customer should feel safe, happy and confident getting their bikes sorted for race day, serviced and looked after. Most bike shops and big bike chains have shoddy service and worse advice.

Get back on the bike – that's all that matters.

Primary Accent Colour

e.g. #B5451B, deep forest green, warm amber

use the two color combination as design element

What This Business Is NOT

e.g. Not corporate, not clinical, not cheap, not loud

not corporate, not boring, not faceless, not treating you like a number, not giving generic advice.

One Thing Most Competitors Get Wrong

e.g. They all look the same, no personality, outdated sites, no trust signals

no personality, only talks about brands and products, no soul

Competitor 1 — Name + URL + observation

<https://www.cyclelab.com/> - big corporate

Competitor 2 — Name + URL + observation

<https://www.lynnwoodcyclery.co.za/> - only brands, some club personality

Competitor 3 — Name + URL + observation

<https://www.cyclemaniasa.co.za> – no brand

<https://gearchange.co.za/> - nice dark theme

07 GOALS & CTA

Primary CTA

e.g. Book a free consultation, Call now, Get a quote, Visit us

book a bike service

Email capture angle

e.g. What would make someone give their email — discount, checklist, newsletter

what is industry standard? And what would stand out that no one does?

What does success look like?

e.g. What action do you want the visitor to take — be specific

booked a bike service or bought a new bike

09 ADDITIONAL NOTES

Anything else that would help — personal context, history of the business, things the owner said that stood out, anything the research tool won't find.

Use a layout and theme that goes against the standard white grain — possibly dark grey with the light green and dark blue as text and highlights? Need to stand out in a sea of sameness.
